

"I sought out academic coaching because I felt like I was working really hard and not getting the results that I wanted. I was struggling in certain subjects and didn't know how to get ahead. The study skills and techniques Pat taught me made it easy for me to excel in every class. I am impressed by my new self discipline and effective time management skills. I am a lot more in control of my grades and the way I learn. I feel like I have a really good routine and helpful tools for studying and project planning. Feeling in control lets me focus on really learning the material and enjoying it. My grades have improved significantly after working with Pat, and I ended the year with a 4.0!"
